DEVICES FOR HEARING IMPAIRMENTS

ITEM DESCRIPTION (New designates a new item)	TYPE	ITEM#
Desktop Sound Pac LES 391 Ideal for children with mild hearing loss, hearing aids, or cochlear implants. Because it is a desktop model, headphones are not required. As teachers speak into the wireless mic the SoundPak™ amplifies their voice - making it possible for the class to hear. Lightspeed Technologies. www.lightspeed-tek.com	HI	191
Easy Listener Personal FM System W/Teleloop Cord The Easy Listener personal FM system can be used with a hearing aid or as a stand-alone hearing system to help combat the background noise, distance, and echo that can interfere with clear speech understanding. Phonic Ear. www.phonicear.com	HI	200
Personal FM System LES-370 Light weight and durable personal FM unit is compact and good for students that need a way to tune in to what the teacher is saying. Lightspeed Technologies. www.lightspeed-tek.com	HI	190.1
Pocket Talker Pro Allows students to clearly hear both the therapists or teachers voice and their own. Tool for articulation therapy. Provides immediate feedback. Williams Sound Inc. www.williamssound.com	HI/X	37
Portable Infrared Amplification System Wireless portable amplification system delivers clear and precise sound throughout the classroom. Portable for easy transport from class to class. Lightspeed Technologies. www.lightspeed-tek.com	HI	194
Portable Wireless Amplifier WA100 Device is battery powered, lightweight, portable amp. system. This system can be used in smaller gyms, cafeterias, classrooms, or outdoor play areas. The amplifier produces 20 watts of output power. Lightspeed technologies	HI	209
Radium Sound Field FM System Portable sound field system, 20 different wide band FM frequencies contained in the wireless mic which houses the receiver and speaker all in the stand. Has two built in channels for team teaching for passing the mic around. Phonic Ear. www.phonicear.com	HI	77
Wireless FM Listening System 300 Helps to eliminate background noise and other distractions. Portable, no wire, no hassle. Has a range of up to 150 feet, and will operate up to 60 hours at one time. Compatible with most telecoil-equipped hearing aids. Williams Sound Inc. www.williamssound.com	HI	195.1
