**Palm-Sized DV9300 Video Camera From Mustek Redefines
Versatility With 6-in-1 Multi-functionality**

NEW YORK, NY (October 13, 2005) -- Mustek USA, an industry leader in consumer electronics technology, today launched its DV9300, a palm-sized digital video recorder built for fun and creativity. Economically priced for family enjoyment at only \$149 (U.S.), the DV9300 is the next "must-have" digital video gadget, offering 6-in-1 multi-function entertainment for on-the-go lifestyles.

The DV9300 epitomizes Mustek's reputation for innovative digital convergence. Although small enough to slip inside a coat pocket, the incredibly versatile DV9300 is not only a digital camcorder utilizing the newest MPEG-4 technology, it is also a digital still camera boasting resolution up to 3504 x 2632 pixels (9 megapixel interpolated) with a direct print feature, along with a handy digital voice recorder (WAV), an MP3 and WMA music file player, a video camera/webcam, and a Flash Memory card reader. There has never been a more adaptable or affordable DV camera for imaging enthusiasts.

-more-

“Mustek understands that today’s consumers want cool technology that thrills them with every feature, so we’ve made the portable DV9300 capable of making movies, snapping pictures, listening to MP3 music files, recording audio and so much more,” said Bill Nguyen, Director of Marketing, Mustek USA. “The DV9300 is one of the most exciting digital video products Mustek has ever offered. It takes every good time and makes it better!”

Incorporating the latest usability enhancements, the DV9300 is amazingly simple to operate and enjoy right out of the box, thanks to its 2.0-inch swivel TFT LCD display, easy-to-navigate mode dial and on-screen menus, high-speed USB 2.0 connectivity, plus its compatibility with both Windows® (98SE/Me/2000 SP3 or above/XP) and Apple Macintosh (Mac OS 9.X and 10.1 or above) operating systems. In addition, the camera’s internal 32MB flash memory, combined with a memory-expansion slot for SD/MMC cards, means that the consumer will always have room for “one more shot.”

Built around a powerful 3.0M CMOS sensor, the Mustek DV9300 has all the tools needed for stunning video and great digital photos. Its super-sharp video can be captured in sizes up to 640 x 480 at 30 frames-per second (fps) with crystal-clear audio thanks to a built-in microphone. A digital image stabilizer assures excellent results, while the optional digital image effects such as Solarize, Pastel or Sketch, can add artistic flair. After previewing their video clips on the DV9300’s bright LCD screen, video files can be viewed on a TV using the included A/V cable or downloaded to a computer where they can be shared, stored and cherished.

The DV9300's digital still camera performance is equally impressive. The camera's hardware interpolation feature transforms the DV9300's already smart picture-taking capability into share brilliance with JPEG color images at resolutions up 3504 x 2632 pixels— the equivalent of a 9-megapixel digital camera costing hundreds of dollars more. Other photographic features contributing to the DV9300's success are an 8X digital zoom, a user-selectable flash mode (Auto/Off/Red-Eye) and scene modes, a quality-made 8.6mm lens (F/3.0), and shutter speeds of 1/15 to 1/2500 second.

Stylish and compact, the DV9300 weighs a mere 0.4 lbs. and measures just 3.9 x 1.6 x 3.0 inches (L x W x H). A rechargeable Li-on battery that comes with the camera powers it. Other accessories include a power adapter, USB cable, audio/video cable, camera strap and protective tote bag.

About Mustek, Inc.

Founded in 1988, Mustek is a leading manufacturer of innovative imaging products integrating new technologies to improve and expand the consumer's ability to explore the future of digital vision. Mustek was first established with a focus on handheld and flatbed scanners. It has now grown to include an extensive line of consumer electronics such as digital cameras, digital camcorders, DVD players, home theater systems, portable electronics and computer peripherals. Located in Hsin-Chu, Taiwan, Mustek's manufacturing facilities are world leaders (by volume) of scanner production. Mustek USA is the North American arm of Mustek and is located in Irvine, California.

SPECIFICATIONS: MUSTEK DV9300

IMAGE SENSOR	3.0 CMOS Sensor
LENS/FOCAL LENGTH	Fixed / 8.6mm
APERTURE RATIO	F = 3.0
DIGITAL ZOOM	8x
OPTICAL ZOOM	N/A
DISPLAY	2.0 TFT LCD
EXPOSURE MODE	Auto
WHITE BALANCE	Auto/Daylight/Cloudy Fluoresce/Tungsten
SHUTTER SPEED	1/15 sec ~ 1/2500 sec
DIGITAL EFFECTS	Negative Art / Sepia / B&W / Solarize / Pastel / Sketch
FLASH	Yes
FLASH MODE	Auto / Red Eye / Off
INTERNAL MEMORY	32 MB
MEMORY CARD SLOT	SD/MMC
MICROPHONE	Built-in
SPEAKER	Built-in
TELEVISION SYSTEM	NTSC/PAL
BATTERY TYPE	Li-on Battery
POWER SOURCE	Li-on Battery x1
DIMENSIONS	3.9" x 1.6" x 3.0" (L x W x H) 0.4lbs (Without Battery)

DIGITAL STILL CAMERA

RESOLUTION	Super Fine (9M): 3504 x 2632 Fine (6M): 2832 x 2128 Normal (3M): 2048 x 1536 Economic (XGA): 1024 x 768
SELF TIMER	10 Seconds Delay
FILE FORMAT (IMAGE)	JPEG Compatible
SCENE MODE	Auto/Portrait/Landscape/Sport/Night Portrait/Spotlight/Beach&Ski/Sunset Moon

DIGITAL CAMCORDER

RESOLUTION	Fine: 640 x 480 30fps Normal: 352 x 228 30fps Economic: 320 x 240 30fps
FILE FORMAT (IMAGE)	ASF (MPEG 4 Compatible)

DIGITAL VOICE RECORDER
