**MUSTEK PORTABLE LCD TV WITH BUILT-IN DVD
PLAYER PROVIDES ULTIMATE ENTERTAINMENT
CHOICES IN AN ULTRA-SLIM TABLET DESIGN**

IRVINE, CA. (October 13, 2005) — Continuing to expand upon its theme of Mobility Without Boundaries™, Mustek USA today launched its PL8A90T, a super-slim, portable LCD TV with built-in DVD player to empower consumers to take a full range of multi-format entertainment choices with them on the road -- from the newest Hollywood blockbusters to MP3 music files to digital photography collections.

The new PL8A90T is immediately available with an MSRP of \$399.99 (U.S.).

“The PL8A90T is an essential travel accessory designed to provide a total entertainment experience when you are on the go,” notes Bill Nguyen, Director of Marketing, Mustek USA. “Best of all, it offers a price-to-performance ratio that is unmatched by any other manufacturer, giving the consumer the best value for their money.”

-more-

Boasting a 9-inch active-matrix TFT screen with 16:9 aspect ratio, the PL8A90T is surprisingly lightweight (2.1 lbs.) plus it is compact enough to go anywhere, anytime. Only 1.1 inches thick, it slips easily into totes, briefcases and purses so everyone can take their flicks on their trips.

MUSIC, MOVIES & MORE

An industry trendsetter, Mustek made it a goal in developing the new PL8A90T to meet consumer demand for the greatest versatility, fun and audio/visual performance from a portable LCD TV with built-in DVD player. The result is a player that is compatible with DVDs and DVD+R/RWs, music files, audio CDs, KODAK® Picture CDs and CD-R/RW discs. Plus, the PL8A90T features an integrated SD/MMC memory card reader to allow the display of photos, video or music directly from a card. Moreover, it is one of the few LCD TV with built-in DVD players empowering it to receive broadcast TV signals.

By combining a wide-screen display with powerful built-in stereo speakers, a wireless IR remote control, anti-shock protection and an L-type stand, the PL8A90T addresses the need for enhanced movie-viewing enjoyment. Two headphone jacks allow a companion to share in the fun when the sound is turned off, while the player's component video output enables it to connect seamlessly to a hotel TV or a video monitor. The PL8A90T also supports digital Coaxial output, S-Video output and Dolby® Digital Decoder output for a true surround sound experience with realistic theater acoustics. In fact, the feature-rich PL8A90T can easily substitute for a full-size DVD player in a home entertainment system.

The PL8A90T's rechargeable battery pack provides for up to 3 hours of mobile entertainment to compliment an active lifestyle. It also comes with a 12-volt cable for use in the car and a universal AC/DC power adapter so that users can plug in whenever they feel the urge for entertainment.

Accessories include a credit-card size Remote Controller with 3V Battery, 12-Volt Car Cigarette Lighter Cable, Video Signal Cable, Audio Signal cable, Universal AC/DC Power Adapter, Rechargeable Battery Pack, Car Harness, Headphone, TV Antenna and Handy Bag.
