

Plug-N-Scan 1200 USB

The latest addition to Mustek's product line, the Plug-N-Scan 1200 USB works on both PC and iMac computer systems. It offers easy USB installation and all the software you need to get the job done.

On a PC, scanning, faxing, photocopying and e-mailing were never easier, with the included Direct Scan application. Also included are Photo Express 2.0 SE, a color imaging and enhancing software application which gives users the ability to create their own greeting cards, invitations, calendars and more and the award-winning Xerox Textbridge Pro 8.0 for scanning text (software bundle valued at over \$129).

iMac users will love Color It!, the premier scanning application for the Macintosh. With built-in filters and included graphics tools, image-editing was never easier or more fun!
